

ALAKA`INA FOUNDATION

A Native Hawaiian Organization

The Alaka`ina Foundation Native Hawaiian Organization (NHO) firms have been delivering **client-centered solutions for Defense and Military Health for 15 years**. Our focus is and will continue to be on extending and expanding the expertise, information, and tools needed to protect, promote, prevent, prepare for, and improve military health, ensure readiness, and prevent and treat injuries in both peacetime and conflict.

At the heart of the Alaka`ina NHO firms are values of integrity, excellence, and honesty. These values are reflected in the origins of each of our company names—our values and names are deeply rooted

in Hawaiian history and culture, and are prevalent in the work that we accomplish. Our “Why” – the Alaka`ina Foundation – is to ensure that the young men and women of Hawai`i have the skills and competencies they need to be effective leaders. We are making this a reality through innovative educational programs that combine leadership, science, technology, and environmental stewardship. Each of us has a responsibility to the `Ohana (or family), which also encompasses our customers and our communities; and each of our companies represent the cohesion that we bring, as **One Team** with **One Mission**, to each and every program that we have the privilege to undertake.

Our experience and past performance spans broadly across the following Departments of Defense:

U.S. Army

- Medical Research Institute of Infectious Diseases (USAMRIID)
- Medical Research Institute of Chemical Defense (USAMRICD)
